OCSP/PECA PFAS Check-In - 4/6/2021

Tuesday, April 6, 2021
4:02 PM

Meeting Subject: OCSPP/OECA PFAS Check-In - 4/6/2021

Meeting Date: 4/6/2021 4:00 PM

Location: Microsoft Teams Meeting

Link to Outlook Item: [click here](#)

Invitation Message

Please review and address comments in the new link. It includes both the status of the OPP lab testing and the status of other collaborations/discussions.

PFAS in Pesticide Containers - Status - 02 18 2021 - with Comments for Team.docx

Next Agenda

- Updates on lab testing (OPP)
- Updates on TSCA Subpoena (OECA)
- Updates from OPPT (OPPT)
- Formal Communication Efforts (OPS)
 - Ed request for a chronology – see attached Paper
- Other discussions happening across EPA, gov't, or with external stakeholders
 - Meeting 2/25 with HCPA (Household and Commercial Products Association)
- Any other updates/requests

Participants

Notes

Almost to the end of method validation for the oil matrices - data consistently not right. Tomorrow - doing a confirmation run - if that's the mistake

- Performance is consistent
- But - there is a mistake - ID'd potential source of the error - Yaorong checking it out.

Rec'd second shipment from MA - mostly adulticide for mosquitoes - 2nd shipment.

- No overlap with Permanone 3030

Questions for PEER - likely need for follow-up conversation - Eurofins - discussing with Yaorong and Ingeborg tomorrow.

Bayer -

- Spoke to Michal on Monday
- High level
- What she heard was they want us to continue doing what we're doing
- Concerned that NGOs are leading on this
- Want us to Q/C what we're doing.
- Samples
- More discussion with Bayer
- KN to reach back out to Bayer
 - Questions on PEER analysis? They were going to provide this in writing.
 - Sample analysis - can we get some samples of Permanone 3030
 - Cc: RD

Other OPP Updates - none

OPPT Updates:

- Paying catchup
- Developing outreach strategy - non-pesticidal, n
- Within bounds of paperwork reduction act

Surveillance

Looked at private sector standards - not many

Additional outreach

Industrial chemistry branch - what kind of containers this may be an issue (opaque containers) -

David W to have some conversations with ACC

Outreach Strategy - Action - topic for this meeting once ready. Consider including a container sampling component if additional lab work is needed. .

OPPT Thought - ORCR - recycling ? Does they need to be looped in?

- Potential Detection - contaminated lab equipment, or fluorinated plastics entering the recycling stream
- When can be confident in presence of pfas in recycled containers & Source???
 - Lab blanks - plain water or methanol
 - Don't know whether these have come from recycled plastic or not.
 - All made from virgin/plastic materials
- Action - Consider whether to loop in ORCR into conversations, following determination as to whether pfas may be present in recycled plastic containers.

OECA Updates

- Don't know the other fluorinators
- Recently acquired a container from Belgium (sp?)? who also does fluorination - not tested yet.

TSCA - waiting for existing chemicals to make a decision

Regional updates – none. MD seeking assistance on press responses.

OPS - OCSPP

- Sandra O'Neill - questions from SFIREG - some broad; some technical
 - 2 SFIREG sessions taking place next week
 - April 12 and 13th
 - 1:00 - 2:45 pm - Majority of questions - speakers - BEAD, OECA, RD
 - 13th: 11:30 to 1:00 pm - intent - BEAD specific. Hotze from Mass also presenting.
 - Comms branch has questions already answered (clearance)
 - Some still need clearance
- Sandra to send out information in prep for SFIREG
- Carissa to loop back with Shamus and Greg.

Ed:

- Michal asking on where we are on testing for the new products
- Approving Clarke's new containers
- Bayer - conversations with Bayer.
